

## **Ceiling collapses in Daytona**

(08/22/06 WFTV 9, FL)

Daytona Beach, Fla. -- Several residents of a Daytona Beach assisted living home didn't wake up in their own beds Tuesday morning.

They had to be moved to a sister facility in Ormond Beach Monday night, after the ceiling caved in on the home owned by the Frederick Avenue Group. A broken sprinkler system is to blame for the mess.

Firefighters carried out large chunks of the waterlogged ceiling, and tried to shovel out the rest. No one was hurt.
